## FOREWORD

Dear Colleagues and Friends,

This is kindly to invite you to the II. Visegrad Plastic Surgery Congress, which will take place in Brno, Marriott Courtyard Hotel, September 16-18, 2021. Organizers evolve idea of Dr. Jerzy Kolasiński who started the first event of this kind 2 years ago in Polanica Zdroj. Very successful meeting proved viability of idea to connect plastic surgeons from Poland, Slovakia, Hungary and Czech Republic (V4), countries with similar geographical, cultural and political background.

Congress will provide space for nearly 100 presenters in free papers category, 8 invited lectures – 2 representing each V4 country, nominated by national societies and finally audience will have exceptional opportunity to learn from world leaders of our specialty **Dr. J.P.Hong, Dr. Bohdan Pomahac and Dr. Pietro Berrino**. We suppose their key note lectures will provide us with extraordinary educational experience.

Learning process will be enhanced by morning detailed courses in selected topics.

For those who want to improve practical skills in perforator flap elevation there will be two days anatomical workshop just before the congress. Both our rare guests J.P. Hong and P. Berrino will be in anatomical lab and participate teaching process in person!

And what about social events during congress? There are at least two good reasons why people travel to Brno.

First organizers want to bring participants to recently reopened exhibition of Slavic Epopee, 16 monumental paintings by Alfons Mucha, depicting crucial moments from Slavic history. Second, for those who are interested in architecture we will organize visit to functionalistic Vila Tugendhat, built by famous architect Mies van der Rohe.

Finally, do not forget that Brno is located in wine area of South Moravia and tasting of local wines during harvest time have special atmosphere.

We wish you come to Brno to share your expertise, receive new ideas, meet old friends, make new one and also to say hello to your teachers, mentors and inspirational heroes.

Welcome to the II. Visegrad Plastic Surgery Congress in Brno.

**Dr. Luboš Dražan**  
President of the Congress

## WELCOME

It is my great pleasure and honour to invite you to the International Plastic Surgery Flap Dissection Course which will take place in Brno, Czech Republic, September 14-16, 2021.

This course has been designed to address the needs of the residents in plastic surgery wishing to learn flap dissection as well as more experienced plastic surgeons who wish to extend their repertoire of flap surgery.

The course will be held at the University Centre for Surgical Anatomy using fresh-frozen cadaver specimens enhanced by an advanced technique of coloured silicone vascular injections emphasizing the vascular anatomy of the flaps and facilitating the dissection.

A hands-on approach will be used with no more than two participants per cadaver specimen. All practical aspects of the course will take place in the anatomical laboratory. A multimedia approach will be used, and we recommend that registrants bring their own scrubs and loops. All other instrumentations will be supplied.

We wish you would accept our invitation and come to Brno to improve your microsurgical skills, meet new friends and explore the beautiful region of South Moravia.

We will be very pleased to welcome you at the International Plastic Surgery Flap Dissection Course in Brno.
